

# Anvil Desking Range.

From the distinctly triangular frame profile to the 25mm EI grade melamine worktop, the Anvil is just as much a statement piece as it is a functional piece of office furniture. Strong, stable and versatile; each Anvil desk also features a fixed height of 715mm, cable port with cover and a 30mm height adjustment in each foot.

As a modular, multi-configuration desk, the Anvil is available in a virtually unlimited number of arrangements from straight, double sided and pod configurations to complex, hybrid setups. With countless design options, the only limit to the Anvil's functionality is your imagination
